Life Response

1. How do we develop high and lofty concepts of God? For sure, deeper studies of God's Word and application of those truths to our lives, but also a study of His names and perfections with usage in our prayers and meditations.

2. Let us confess the whispers of unbelief when we think that He will bless at some other time, in some other place, and some other people. Remember the Lord God does not change.

3. Conflict between the old man and the new man in Christ was allowed by God that we might cling to Him and His word and not be comfortable with the sin.

4. Focus on a sin area and ask God to deliver. Find Scriptures to help the mind and heart. Find a close friend and believer to hold you accountable.

5. Let us make sure that we have not lost the inwardness of the faith and gained the outward only.

6. Finally, memorize one of the three verses. When you pray, thank God that He does not change. Look for the advantages of this perfection of God.
